### SE-FBC FILTER BAG CLEANING - SPARE PARTS APPLICATION OVERVIEW

The spare parts for the Filter Bag Cleaning machine are specifically engineered to ensure effective mechanical cleaning of filter bags, stable brush operation, and reliable performance in industrial cleaning processes. This model is a filterless system and operates solely as a filter bag cleaning machine, without integrated dust filtration or aspiration units. All spare parts, including brush systems, brush drive motors, shafts, housings, bearings, covers, and mechanical connection components, are precisely manufactured to support uniform brush contact, controlled rotation, and consistent cleaning efficiency. These components work together to remove adhered dust, flour residues, and compacted particles from filter bag surfaces without damaging the fabric structure. Manufactured from high-quality steel, wear-resistant plastics, and industrial-grade mechanical components, Filter Bag Cleaning spare parts help reduce mechanical wear, ensure stable operation, and extend overall machine service life. Sedirolu Group Filter Bag Cleaning spare parts are fully compatible with all Filter Bag Cleaning machine models and are designed for safe, hygienic, and continuous operation in demanding industrial environments.

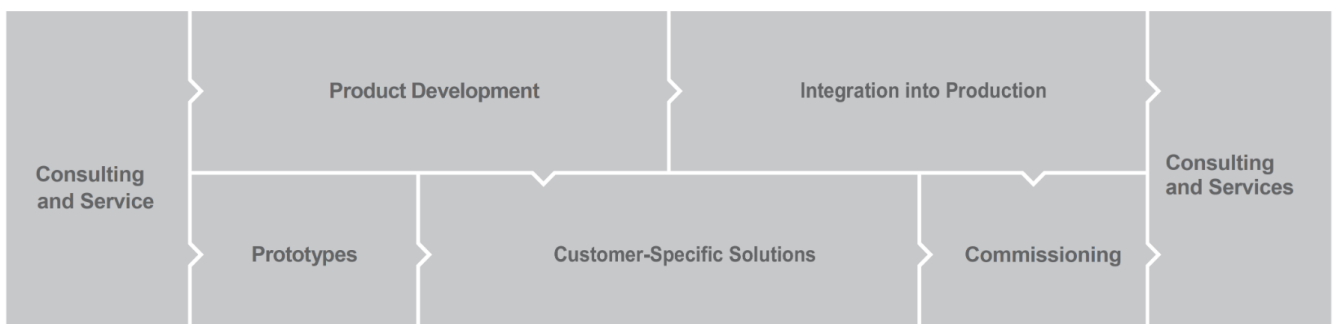

#### FEATURES & ADVANTAGES – SPARE PARTS

- ▶ Designed specifically for FILTER BAG CLEANING machines (filterless model)
- ▶ Ensures effective mechanical cleaning of filter bags
- ▶ Supports stable brush rotation and uniform cleaning pressure
- ▶ Manufactured from high-quality, wear-resistant materials
- ▶ Reduces mechanical wear and unplanned downtime
- ▶ Extends filter bag and machine service life
- ▶ Easy installation, inspection, and replacement
- ▶ Suitable for continuous industrial operation

#### INSTALLATION & OPERATION GUIDELINES – SPARE PARTS

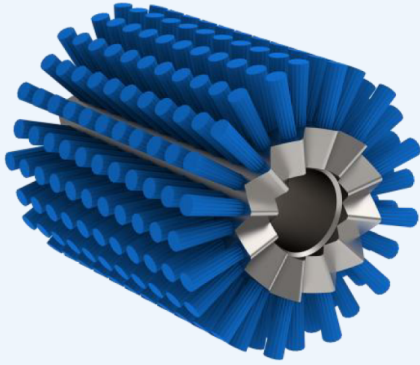

When replacing Filter Bag Cleaning spare parts, follow these essential steps:

- ▶ Use only genuine Sedirolu Group spare parts
- ▶ Verify compatibility with your FILTER BAG CLEANING machine model
- ▶ Shut down the machine completely before replacement
- ▶ Disconnect electrical power before working on motors or rotating parts
- ▶ Use appropriate personal protective equipment during handling
- ▶ Ensure correct alignment of brushes, shafts, and motors
- ▶ Secure all fasteners and couplings firmly
- ▶ Keep the installation area clean to ensure smooth mechanical operation

SEDIROGLU GROUP DELIVERS COMPLETE SOLUTIONS ACROSS VARIOUS INDUSTRIES, COMBINING DEEP TECHNICAL EXPERTISE WITH A DIVERSE AND EXTENSIVE PRODUCT RANGE TO MEET A WIDE SPECTRUM OF CUSTOMER NEEDS.

FACING A DEVELOPMENT CHALLENGE? WE PROVIDE THE SOLUTION.  
AT SEDIROGLU GROUP, OUR EXPERIENCED R&D TEAM IS COMMITTED TO CONTINUOUS IMPROVEMENT.  
MANY INDUSTRY INNOVATIONS HAVE ORIGINATED FROM OUR COMPANY.  
WE ARE DRIVEN BY A FORWARD-THINKING MINDSET AND A PIONEERING SPIRIT IN EVERY STEP WE TAKE.

#### CONTACT – WORLDWIDE

With 12 branches around the world and marketing teams in over 70 countries, we provide you with outstanding service worthy of a technology leader.

We look forward to hearing from you!
