SE-İD & SE-İDV IMPACT DETACHER A SERIES - SPARE PARTS APPLICATION OVERVIEW

The spare parts for the SE-İD & SE-İDV Impact Detacher A & V Series are specifically engineered to ensure effective detaching performance, stable rotor operation, controlled product flow, and continuous operation in modern milling plants. These spare parts play a critical role in separating agglomerated flour and semolina particles formed during the grinding process, directly improving sieve efficiency and overall product quality. Each spare part, including rotors, impact elements, shafts, bearings, bearing housings, motor coupling components, covers, inspection mica glasses, seals, balancing elements, and mechanical connection parts, is precisely manufactured to support vibration-free rotation and uniform impact force. This ensures gentle yet effective detaching without damaging the product structure. Manufactured from high-quality steel, wear-resistant alloys, precision-machined mechanical components, and industrial-grade sealing materials, Impact Detacher A & V Series spare parts offer high resistance to mechanical stress, continuous rotation, dust exposure, and long-term industrial operating conditions. These components help maintain stable detaching efficiency, reduce mechanical wear, prevent imbalance-related failures, minimize unplanned downtime, and extend the overall service life of the machine. Sedirolu Group original spare parts are fully compatible with all Impact Detacher A & V Series models and motor power configurations. They ensure safe operation, hygienic processing conditions, reliable mechanical balance, and compliance with modern flour milling, semolina production, and cereal processing standards.

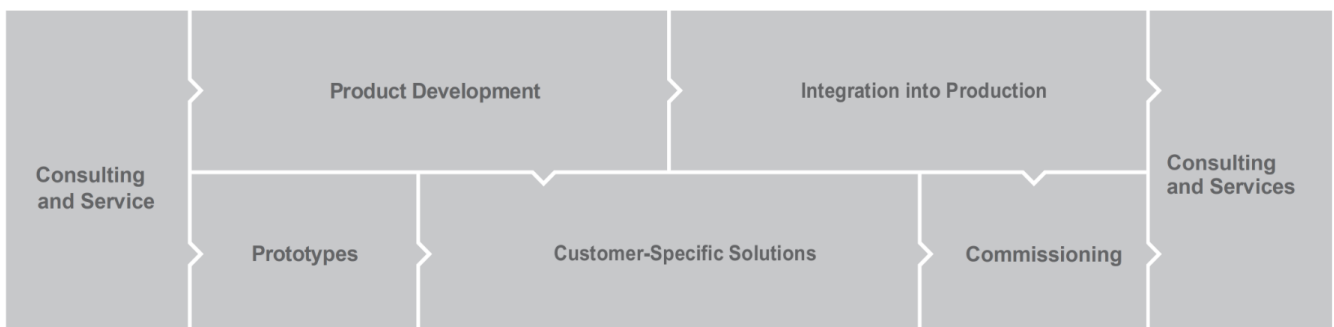

FEATURES & ADVANTAGES – SPARE PARTS

- ▶ Designed specifically for Impact Detacher A & V Series machines
- ▶ Precision-manufactured for perfect fit and mechanical balance
- ▶ Improves sieve efficiency and downstream process stability
- ▶ Easy inspection, replacement, and maintenance
- ▶ Long service life in continuous industrial operation
- ▶ Supports stable rotor speed and vibration-free operation

INSTALLATION & OPERATION GUIDELINES – SPARE PARTS

When replacing Impact Detacher A & V Series spare parts, follow these essential guidelines:

- ▶ Use only original Sedirolu Group spare parts
- ▶ Verify compatibility with the specific Impact Detacher A & V Series model
- ▶ Shut down the machine completely before replacement
- ▶ Disconnect electrical power before working on rotating components
- ▶ Use appropriate personal protective equipment during maintenance
- ▶ Ensure correct alignment of rotor, shaft, and bearing assemblies

SEDIROGLU GROUP DELIVERS COMPLETE SOLUTIONS ACROSS VARIOUS INDUSTRIES, COMBINING DEEP TECHNICAL EXPERTISE WITH A DIVERSE AND EXTENSIVE PRODUCT RANGE TO MEET A WIDE SPECTRUM OF CUSTOMER NEEDS.

FACING A DEVELOPMENT CHALLENGE? WE PROVIDE THE SOLUTION.
AT SEDIROGLU GROUP, OUR EXPERIENCED R&D TEAM IS COMMITTED TO CONTINUOUS IMPROVEMENT.
MANY INDUSTRY INNOVATIONS HAVE ORIGINATED FROM OUR COMPANY.
WE ARE DRIVEN BY A FORWARD-THINKING MINDSET AND A PIONEERING SPIRIT IN EVERY STEP WE TAKE.

CONTACT – WORLDWIDE

With 12 branches around the world and marketing teams in over 70 countries, we provide you with outstanding service worthy of a technology leader.

We look forward to hearing from you!
