SE-VMD VITAMIN DOSING MACHINE - SPARE PARTS APPLICATION OVERVIEW

The spare parts for the Vitamin Dosing Machine SE-VMD are specifically engineered to ensure precise dosing accuracy, stable material flow, controlled feeding, and reliable continuous operation in milling and food processing plants. These spare parts play a critical role in maintaining exact vitamin and additive dosing rates, which are essential for product quality, nutritional compliance, and process consistency. Key components such as dosing screws (augers), drive motors, gearboxes, speed reducers, chains, sprockets, bearings, shafts, sealed housings, bunker components, observation covers, pneumatic elements, sensors, and electrical control parts are precisely manufactured to support accurate volumetric dosing and smooth mechanical operation. Each component works together to ensure uniform distribution of vitamins and micro-ingredients without segregation or dosing deviation. Sediroglu Group original spare parts are fully compatible with all Vitamin Dosing Machine SE-VMD models and configurations. They ensure hygienic operation, precise dosing performance, safe mechanical and electrical integration, and full compliance with modern milling, food safety, and industrial production standards.

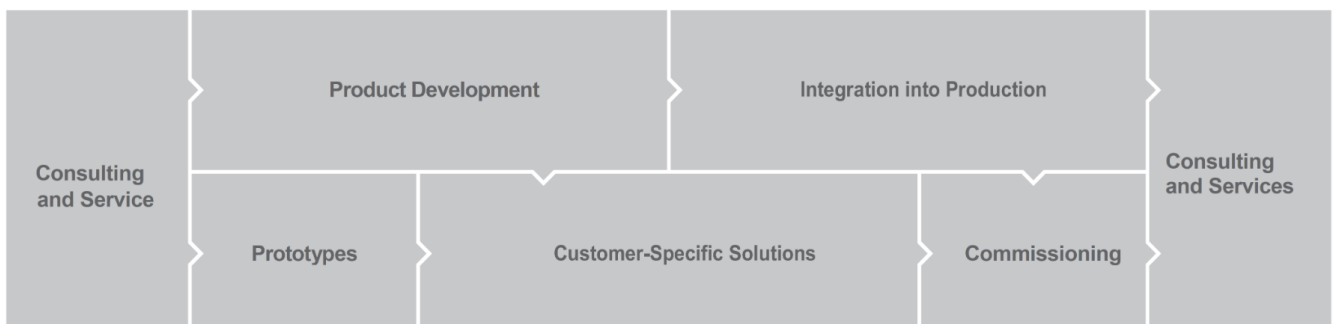

FEATURES & ADVANTAGES – SPARE PARTS

- ▶ Designed specifically for Vitamin Dosing Machine SE-VMD systems
- ▶ Ensures precise and consistent vitamin and additive dosing
- ▶ Manufactured from food-grade, wear-resistant, and industrial-quality materials
- ▶ Supports stable mechanical operation and accurate volumetric control
- ▶ Reduces dosing deviations, mechanical wear, and maintenance frequency
- ▶ Minimizes unplanned downtime and improves production reliability

INSTALLATION & OPERATION GUIDELINES – SPARE PARTS

When replacing Vitamin Dosing Machine SE-VMD spare parts, follow these guidelines:

- ▶ Use only original Sediroglu Group spare parts
- ▶ Verify compatibility with the Vitamin Dosing Machine SE-VMD model
- ▶ Stop the machine completely and disconnect all electrical power before replacement
- ▶ Use appropriate personal protective equipment during installation
- ▶ Ensure correct alignment of dosing screws, shafts, motors, and gear units
- ▶ Secure all bolts, couplings, and fasteners according to technical specifications
- ▶ Check seals, covers, and safety components after installation

SEDIROGLU GROUP DELIVERS COMPLETE SOLUTIONS ACROSS VARIOUS INDUSTRIES, COMBINING DEEP TECHNICAL EXPERTISE WITH A DIVERSE AND EXTENSIVE PRODUCT RANGE TO MEET A WIDE SPECTRUM OF CUSTOMER NEEDS.

FACING A DEVELOPMENT CHALLENGE? WE PROVIDE THE SOLUTION.
AT SEDIROGLU GROUP, OUR EXPERIENCED R&D TEAM IS COMMITTED TO CONTINUOUS IMPROVEMENT.
MANY INDUSTRY INNOVATIONS HAVE ORIGINATED FROM OUR COMPANY.
WE ARE DRIVEN BY A FORWARD-THINKING MINDSET AND A PIONEERING SPIRIT IN EVERY STEP WE TAKE.

CONTACT – WORLDWIDE

With 12 branches around the world and marketing teams in over 70 countries, we provide you with outstanding service worthy of a technology leader.

We look forward to hearing from you!
